AREA DETAILS

- **'CARPET AREA as per RERA'** means the net usable floor area of an apartment, excluding the area covered by the external walls, areas under service shafts, exclusive balcony or verandah area and exclusive open terrace area, but includes the area covered by the internal partition walls of the apartment.
- **BUILT-UP AREA** is the sum of carpet area together with exclusive balcony /verandah area(covered or uncovered) and the area under the external wall , in case there being a common wall between 2 apartment then 50% of the thickness of such wall.
- **SUPER AREA** has no commercial bearing. However, before applicability of Real Estate Regulation Act, immovable properties were generally sold on Super area basis. It is now very difficult for the allottees to compare between the unit sold on Super Area and the units being sold on Carpet Area basis. Therefore, for the purpose of making it comparable with the properties sold prior to applicability of Real Estate Regulation Act, Super Area of the unit is being provided. Consideration of the unit is dependent on Carpet Area and exclusive balcony or verandah.
